

Thank You Cards

These are just a few of the Thank You cards that our Day Therapy staff have received from patients.

"To Willowbrook Hospice Doctors, Nurses, volunteers, each and everyone who cared for me. Attending Willowbrook Hospice has made me a better person. You gave me back my confidence and helped in taking away all the dreadful fears I had as a cancer patient. I am continuing to make good progress health wise and only wish that more people were given the chance to attend a Hospice for such wonderful treatment. It was a life changing experience for me and my family; we will be eternally grateful for all the support I was given, and all concerned who unselfishly give their time in helping people. To me they are simply the best."

"A note of thanks to each and everyone, doctors, nurses, carers, the smiling faces you see around. Before I came to Willowbrook, I was deeply worried, then suddenly all my fears were taken away. You gave me inspiration to carry on and I feel a whole lot better from my time with you"

"To all Day Therapy Staff at Willowbrook. I would like each and everyone of you to know just how much you're thought of. Most of all, I thank you for the tender care you have shown and all the love and affection. This is just what does best at this moment in time, realising someone is there for me."

"To all the lovely folks at Willowbrook. When I arrived at Willowbrook my health was poor, and I couldn't take much more, despondent to the end. Then I soon realised I was being cared for by the very best. I was of the opinion, there was nothing to bring me back to feeling normal again and suddenly my life was turned around, and now I'm homeward bound. All the family love the place. All the staff knew our names, not only a face. They all were made to feel at home and so to everyone, may god bless you all."

"These few lines are for the lovely people in Day Therapy. This is just to say that in this very busy world we live in quite often we seem to be alone. Then our needs brought us to Willowbrook Hospice, and soon we realised there was an abundance of love and caring waiting for us. from all who took us under their wings. Our spirits were lifted high and this gave us confidence to carry on to face another challenge ahead."

"Dear Day Therapy Friends, thank you for being so generous with love and also in giving your undivided attention. You put joy into living and made us feel on top of the world again. Thoughtfulness is a gift only possessed by the few, so we shall keep you in our thoughts for a long time to come."

"Dear Day Therapy Unit, Thank you all for looking after me. I shall miss the banter, but will hang onto the memories forever. Loads of love"

"Dear friends at Willowbrook. I am writing to thank you for all the wonderful care provided to me during the past few weeks. Even though you had others to look after in similar circumstances. Indeed you go out of your way constantly to make sure all patients under your roof are tended to with expertise, day in, day out. May you be rewarded for all the good work you do providing love and attention, as well as medical expertise for all those who come your way"

"To all my new friends at Willowbrook Hospice. I feel like there has been a wand of miracles cast over mea new lady....and it is all down to the hard work of everyone. I promise to be good and shall be thinking of you all"

"Thank you is simply not enough. So I have to say how privileged I was to have been given the opportunity to have been within your valuable care."

At the start I never looked forward to being at the Hospice. I imagined this was the beginning of the end. However, it wasn't long before I realised there was no need to be afraid, and was soon feeling confident. This was because the lovely people looking after our well being made us feel that little bit extra special, and so all at once the world was a better place. Now I look forward to the next time, meeting up with friends anew."

"To Willowbrook Hospice. I would like to express my appreciation for the wonderful care and attention I received during my attendance at the Day Therapy unit. It is hard to describe the dedication and sincerity of each and everyone, and I realise now, how privileged to have been with you all in such a peaceful and friendly place. May you all be rewarded"
