

How to donate goods

The success of our shops relies on the generous donations of unwanted goods from the general public.

All Goods

If you have any 'preloved' unwanted goods that you wish to donate to the hospice please take them down to one of our [charity shops](#). Please note that we can not take in donated goods at our Prescot shop but we are more than happy to take them in at one of our other shops. Please can you make sure that any goods are clean and not broken

Bulky tems

If you have furniture, the items are too bulky or you do not live near one of our shops then please give us a call on 01744 617196 and we can arrange to collect the goods from you.

Furniture

Please note that we can not take furniture unless it complies with the new fire regulations and has an appropriate label. Please give us a call on 01744 617196 and we can tell you what we are looking for

Electrical

We do sell good quality electrical items which we have to have tested by a qualified electrician. Please give us a call on 01744 617196 and we can tell you what we are looking for.

Toys

We can only sell toys which have the CE mark clearly displayed, this includes soft toys too.

Volunteer
some time

A small amount of time can make
a huge difference to someone else.
